€20 million from BNL BNP Paribas with SACE's Archimede Guarantee

BNL BNP Paribas and SACE are supporting Almawave's strategic growth. The funding will provide Almawave with part of the financial resources necessary for the development of "Velvet", its Italian AI model trained on Cineca's supercomputing infrastructure.

Innovate: Italy hosts the first industry-grade supercomputer of the European EuroHPC Infrastructure

The Italian consortium Innovate has been awarded the first industry-grade supercomputer promoted by the EuroHPC Joint Undertaking (EuroHPC JU). Coordinated by Cineca, Innovate is made up of: Almagest, Autostrade per l'Italia, BI-REX, Fondazione ICSC – National Research Centre in HPC Big Data and Quantum Computing, Fondazione IFAB, Snam, and UnipolSai. The system will be managed by Cineca and hosted at Bologna's Tecnopolo, and will accelerate the adoption of AI

Cristina Giannone at the 10th Edition of CLiC-IT

Cristina Giannone, Lead AI Engineer, was among the keynote speakers, presenting a paper entitled “Multimodal Attention is All You Need”, co-authored with Marco Saioni from Marconi University. The paper addresses issues related to the growing spread of fake news on the internet and outlines our proposal for a transformer-based model that is able to connect textual and visual embeddings, identifying similarities, correlations, and inconsistencies
